TWO THOUSAND SEVENTEEN

A photograph of a child's hands gripping a yellow handle of a playground structure. The structure has green vertical posts and a red canopy. The background is a clear blue sky. The image is framed by a white border with a repeating diamond pattern.

Welcome to SCHI.

A place where teachers and specialized professionals work together towards one common goal:
to help each child reach his or her potential.

Parents entrust their precious children into SCHI's embrace each day, confident in the knowledge that they are receiving top-notch care in a warm and loving environment.

Take a glimpse behind the doors of the SCHI building, for a sampling of the tremendous array of specialized services SCHI provides for its students and their families.

*Because in SCHI,
our love for our students has no limits.*

Achieving POTENTIAL

Customized WALKERS & STANDERS

The physical therapists in SCHI work tirelessly to ensure that students who cannot stand or walk independently have the equipment they need to help support them throughout their day. Each walker requires constant adjustment and tweaking to fit the child's needs as he or she grows.

Life Skills TRAINING

In the Life Skills Center, which includes a real kitchen, dining room, bathroom and bedroom, you can find students working on important skills which enable them to be more independent at home. These skills include making sandwiches, folding laundry, and showering.

Communication DEVICES

Special devices are obtained for students who cannot communicate verbally so they can relay their wants and needs. Amazingly, several students use a communication device which is activated by their eye gaze. They make choices from a screen of pictures, which are then spoken aloud by the device.

Early Intervention PROGRAM

From when a child is born, parents know they can turn to SCHI's exceptional E.I. program to guide them through the myriad of therapies and services they so desperately need in the early years of development.

A sampling of SCHI's services

Adult DAY PROGRAM

When students reach adulthood, SCHI is still there for them. SCHI's exceptional adult day program provides a full day of vocational and recreational activities for adults with special needs.

Adaptive PHYSICAL EDUCATION

Students participate in customized exercise programs which work on their strength and stamina, using equipment such as treadmills and exercise bikes. The movement and endurance training is essential for the health and wellbeing of the students.

Handicap Accessible PLAYGROUND

You can't miss it: colorful, whimsical, and full of specialized ramps, swings, and flooring, this exceptional playground was designed so every child in SCHI can play happily and safely outdoors.

Computer CLASSES

In the computer room you will find students using equipment such as a color coded keyboard and an enlarged mouse to effectively type and learn math and reading skills.

Achieving POTENTIAL

Extended SCHOOL YEAR PROGRAM

School's out? Not in SCHI! A fun-filled summer program provides a change of pace for the students in SCHI, while enabling them to continue receiving their much needed therapies.

Integrated PRESCHOOL PROGRAM

In the preschool classes, children with special needs learn alongside typically developing children, who act as models for them in social and play skills.

Job Training PROGRAM

From as early as age 14, students begin learning skills which will enable them to work at jobs in the future, both in and out of SCHI. Students are currently performing vocational training in stores and businesses around Lakewood, as well as running their own mini-businesses in SCHI.

Mainstreaming & TRANSITION PROGRAM

SCHI partners with many Lakewood schools to enable students to integrate into mainstream classrooms during the day. Thanks to this program, many children have been successfully transitioned out of SCHI and into mainstream schools full time.

A sampling of SCHI's services

Support Groups & PARENT WORKSHOPS

SCHI mothers join together throughout the year to discuss the challenges and joys they experience raising their children with special needs, gaining much needed support, information and camaraderie.

Overnight SUMMER CAMP

Camp SCHI has become widely renowned as a magical summer retreat with a dual purpose: it provides SCHI campers with an amazing overnight camp experience, while giving their families a much needed respite during the summer months.

School Band & DRAMA

Their siblings are privileged to be part of plays and choirs: why shouldn't they? The students in SCHI star in beautiful musical productions which highlight their unique talents.

Group HOMES

SCHI has several group homes around Lakewood, so children and adults who can no longer live at home with their families have a place to reside under the best possible care.
